Position Title:	Game Artist
Purpose:	To design and create the entire visual look and feel of the studio's video games.
Salary:	\$90,000
Hours:	38 Per Week
Location:	SuniTafe Mildura
Key responsibilities:	
1	Asset Creation & Design • Sketch initial concept art for characters, props, and environments. • Build precise 3D models or 2D sprites for game elements. • Paint detailed surface textures, materials, and shaders. • Design user interfaces (UI), menus, and icons.
2	Technical Integration • Export and optimize assets to fit engine memory limits. • Set up lighting, shadows, and particle effects. • Collaborate with animators and programmers for asset functionality.
3	Team Collaboration • Follow the lead director's established visual style guide. • Revise and refine artwork based on team feedback. • Keep asset libraries organized and updated.
Qualifications:	
One of the following: • Bachelor's degree of Game Design, Visual Effects & Entertainment Design, or otherwise equivalent • ICT50120 Diploma of Information Technology (Game Art & Design)	
Work experience:	
• 2 to 4 years of professional game development experience. • Proven track record of taking assets from concept to final engine implementation. • Strong problem-solving skills for technical and artistic bottlenecks. • Ability to mentor junior staff and match established studio art directions.	
Personal qualities:	
• Creativity • Strong team/communication skills • A good work ethic • Able to take & act on criticism • Ability to adapt to technical limitations
